OBJECTIVE

To secure a challenging position in reputable organization to expand my learnings knowledge and skills.

EXPERIENCES

1.INFOSYS LIMITED, Pune:

23-Aug-2021 to current

Infosys is the largest engineering and consulting company in India, and I've worked there for one year. I am employed as a position of System Engineer in the Cyber Security department. Experience in the field of Cyber Security Management to achieve enterprise Governance, Risk and Compliance maturity at different levels using both RSA Archer and ServiceNow Platforms.

Roles and Responsibilities:

- 1.Involved in the process of reviewing and improving information security with a proven ability to deliver under pressure by constantly being engaged in productive discussions
- 2.RSA Archer developer for a leading client in BHP.
- 3.Experience in TPRM, Cyber Security Maturity Assessments, IT Risk Assessments, ISO 27001:2013, ISO 9001 implementation.
- 4.Well versed, GRC(Governance, Risk, Compliance) Automation process and Archer tool.

2.TECHHOMAGE TECHNOLOGIES, Aurangabad:

26-Mar-2021 to 30-Jul-21

I've been a Web Developer Position here for the past 6 months and have handled 3 live projects while developing websites as per client requirements. I have worked both as a backend and frontend developer. Also worked on API building for apps like Loan application and Saathiya app.

Roles and Responsibilities:

- 1.Developed User interfaces with modern JavaScript frameworks, HTML5, CSS3,which improved user satisfaction by 40%.
- 2.Developed object-oriented code in Node.js with 100% accordance to industry and company standards.
- 3.Created Mobile Responsive User Experience with CSS Grids that allowed the user to view any searched business on a google map experience.
- 4.Designed an integrated Database using MySQL that leveraged the JavaScript architecture to yield on demand.
